## Fun Laundry Room

[Rachel Cannon](#) made sure the laundry room is memorable. "They're often thought of as strictly utilitarian," Cannon says. "I wanted to take some of the headache out of the chore of washing clothes." Again, Palm Springs' iconic doors played a role in the design. Cannon had the newly installed storage cabinet doors (re-creations of three famous front door designs) coated in bright colors from Dunn-Edwards Paints. The printed grass cloth suggests a midcentury vibe while remaining current. A burl stool, a white console, and a vintage rug furnish the well-appointed space.
